Juan Lizcano Barbosa

Bogotá, Colombia | juanjlb2005@gmail.com | +57 319 395 9552 | linkedin.com/in/juan-lizcano-barbosa-8a8517244 | lizcanojuan1010.github.io | github.com/LizcanoJuan1010

SUMMARY

Data Science graduate (B.S. cum laude, GPA 4.53/5.0 - Pontificia Universidad Javeriana) with hands-on experience across the full data stack: relational and non-relational databases, ETL, BI dashboards, and machine learning. Production experience deploying computer vision, NLP, and RAG/LLM systems as containerized cloud services. Advanced English (C1), native Spanish.

EDUCATION

B.S. in Data Science, Pontificia Universidad Javeriana, Bogotá 2023 - 2026

Graduated cum laude - Cumulative GPA: 4.53 / 5.0

HONORS & AWARDS

- **Cum laude** - B.S. in Data Science, graduated with a 4.53/5.0 cumulative GPA (2026).
- **Academic Excellence Scholarship** (2023-1) - awarded for the highest cumulative GPA in the Data Science program, Pontificia Universidad Javeriana.
- **Nominee, Outstanding High School Graduate Scholarship** - Pontificia Universidad Javeriana.
- **University representative, H4CKFOREDU International Hackathon for Digital Education** - Universidad de Salamanca (Oct 2024); awarded Certificate of Aptitude.
- **Recognition for outstanding participation, Crack The Case 2024** - inter-university consulting case competition, Bogotá (May 2024).
- **Participant, UN Datathon 2024** - United Nations (Nov 2024).

EXPERIENCE

Imuko Jul 2026 - Aug 2026

Freelance Data Engineer · Bogotá, Colombia

- Delivered data projects for Imuko's clients on a freelance basis; supported data engineering work on a data pipeline for Alteon Insurance.

Vigías de Colombia Nov 2025 - Jul 2026

AI Engineer · Bogotá, Colombia

- Designed and deployed end-to-end ML models into production, with focus on computer vision systems.
- Served models as containerized APIs (Docker, FastAPI/Flask) on AWS and Azure ML / Databricks, and monitored them after release.
- Built NLP / LLM and RAG-based components integrated into production data pipelines, applying Medallion architecture patterns.

Fiduprevisora - Fondo Nacional de Prestaciones Sociales del Magisterio Jun 2025 - Nov 2025

Database Administrator · Bogotá, Colombia

- Administered relational databases supporting a national public pension and benefits fund.
- Wrote and optimized SQL queries; supported data integrity, backups, and reporting.

Comercializadora TS Nov 2023 - Apr 2025

Database Administrator · Bogotá, Colombia

- Designed and maintained the company's database; managed schemas, queries, and SQL-based reporting for day-to-day data operations.

Pontificia Universidad Javeriana 2023 - 2025

Academic & Administrative Monitor · Bogotá, Colombia

- Advanced Programming Monitor (Jul - Dec 2023): tutored students in data structures, algorithms, and C++/Java.
- Administrative Monitor, Economics Specialization (Jul 2024 - Jun 2025): provided administrative and academic support for the program.

VOLUNTEERING & LEADERSHIP

Financial Group Javeriana (FGJ) - student group Jul 2024 - Jun 2025 (1 year)

Capital Markets Analyst (volunteer) · Bogotá, Colombia

– Analyzed capital markets data and produced financial analytics for the university's student investment group, applying data science methods to financial datasets.

CERTIFICATIONS

CS50 SQL	Harvard University	2026
Machine Learning Specialization (with Stanford Online)	DeepLearning.AI	2026
Natural Language Processing Specialization (4 courses)	DeepLearning.AI	2026
Machine Learning in Production (MLOps)	DeepLearning.AI	2026
Building AI Voice Agents for Production	DeepLearning.AI	2026
Oracle Database 18c: Database Design & Foundations	Oracle Academy	2024
HCIA-Big Data v3.0	Huawei	2024
Professional Foundations of Data Analysis	Microsoft & LinkedIn	2023
Professional Foundations of Software Development	Microsoft & LinkedIn	2024
Introduction to Machine Learning	Duke University (Coursera)	2021
Problem Solving Using Computational Thinking	University of Michigan (Coursera)	2021

SKILLS

Databases	SQL (relational), NoSQL, Oracle DB fundamentals, database design, ETL
Programming	Python (Pandas), SQL, Java, C++
Cloud & MLOps	AWS (EC2, S3, Lambda), Azure ML / Databricks, Docker, FastAPI/Flask, Git/GitHub, model deployment & monitoring
Data & AI	Machine Learning, statistical inference, NLP, Transformers / attention models, RAG, LLMs, Computer Vision, Big Data (HCIA)
BI & Analytics	Power BI, advanced Excel, financial analytics, data processing
Languages	English - advanced (C1) | Spanish - native
