SUMMARY

Data Science graduate of Pontificia Universidad Javeriana with academic merit and the highest GPA of the program, with experience in database management and administration, data modeling, ETL / ELT processes, data-quality validation and reporting / KPIs (SQL, Python, R, Power BI, Excel), plus generative AI applied to data analysis (LLMs, RAG, natural-language queries). Effective communicator with business areas, adaptable and results-oriented. Advanced English (C1), native Spanish.

EDUCATION

B.S. in Data Science, Pontificia Universidad Javeriana, Bogotá — 2023 - 2026

Graduated with **academic merit** and the **highest cumulative GPA of the program** - **Orden al Mérito Académico Javeriano** and **Honor Mention for Best Academic Average**. **Academic Excellence Scholarship** (2023-1, highest GPA in the program) | **Outstanding High School Graduate Scholarship** (Beca Bachiller Destacado).

EXPERIENCE

Vigías de Colombia — Nov 2025 - Jul 2026

AI Engineer · Bogotá, Colombia

– Built NLP / LLM and RAG components integrated into the data pipelines, applying Medallion (bronze / silver / gold) architecture to integrate structured and unstructured information in reproducible workflows.
– Designed and deployed end-to-end machine-learning models into production (computer vision), served as containerized APIs (Docker, FastAPI / Flask) on AWS and Azure ML / Databricks, with post-release monitoring.

Fiduprevisora - Fondo Nacional de Prestaciones Sociales del Magisterio — Jun 2025 - Nov 2025

Database Administrator · Bogotá, Colombia

– Administered, updated and validated the relational databases of a national public pension and benefits fund - a regulated environment - supporting data integrity and consistency, backups and reporting.
– Wrote and optimized SQL queries for reports, indicators and data-management processes.

Comercializadora TS — Nov 2023 - Apr 2025

Database Administrator · Bogotá, Colombia

– Designed and maintained the company's database end to end (data modeling, schemas and queries) and built the SQL reports that supported daily business operations.

Pontificia Universidad Javeriana — 2023 - 2025

Academic & Administrative Monitor · Bogotá, Colombia

– Tutored undergraduates in Advanced Programming (data structures, algorithms, C++ / Java) and supported the Economics specialization program.

PROJECTS

Tequendama - AI Insurance Platform | tequendama.saltoangel.co - Omnichannel agentic insurance assistant (web chat, voice, WhatsApp) with KYC, payments and policy issuance on PostgreSQL. Hackathon Colsubsidio 30X, 2026.

PULSO - AI Emergency Routing | pulso-frontend.onrender.com - Turns a paramedic's voice dictation into a structured clinical case and routes the patient to the right hospital by real travel time and available services.

Portfolio | lizcanojuan1010.github.io - Bilingual site with a natural-language AI assistant.

SKILLS

Data Management	SQL - PostgreSQL, Oracle (CS50 SQL; Oracle Database Design & Foundations) | data modeling | information integration and ETL / ELT processes, Medallion architecture | data-quality and integrity validation | NoSQL | Spark, Kafka, Hive (HCIA-Big Data course)
Analysis & Visualization	Python (Pandas, PySpark) | R (professional level) | Power BI | advanced Excel | reports, KPIs and dashboards | financial analytics
Advanced Analytics & AI	Machine learning and statistical inference; unsupervised learning and clustering (ML Specialization, Stanford Online) | NLP (NLP Specialization) | generative AI for data analysis: LLMs, RAG, agents and natural-language queries (LangChain, LangGraph)
Cloud & Tooling	Azure ML, Databricks | AWS (EC2, S3, Lambda) | Docker, Git / GitHub | AI coding agents (Claude Code, Codex, Cursor), MCP servers | Java, C++
Professional Skills	Effective communication with business areas | adaptability | results orientation | analytical and problem-solving ability | teamwork
Languages	Spanish - native | English - advanced (C1)

CERTIFICATIONS & COURSES

CS50 SQL - Harvard University (2026) | **Machine Learning Specialization** - DeepLearning.AI with Stanford Online (2026) | **Natural Language Processing Specialization** - DeepLearning.AI (2026) | **Oracle Database 18c: Database Design & Foundations** - Oracle Academy (2024) | **HCIA-Big Data V3.0 Course** - Huawei Talent Online (2024) | **Professional Foundations of Data Analysis** - Microsoft & LinkedIn (2023).

COMPETITIONS & ACTIVITIES

Financial Group Javeriana - capital markets analyst (student group, 2024 - 2025) | **Crack The Case 2024** - inter-university consulting case competition, Bogotá; recognition for outstanding participation | **UN Datathon 2024** - United Nations, Medellín | **H4CKFOREDU 2024** - Universidad de Salamanca, university representative | **Hackathon Colsubsidio 30X 2026** | **Platanus Hackathon 2026** (participant).
